Speed limit going up on US 41 in southern Brown County

Stretch of highway opening to three lanes

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is announcing the speed limit on northbound US 41 will permanently return to a 65 mph speed limit between Orange Lane and Grant Street by Wednesday, October 2. It had been 55 mph due to US 41 Project construction and the Scheuring Road bridge repair. The stretch of highway will also open to three full lanes of traffic.

Please note: US 41 between County G and Velp Avenue remains 55 mph in both directions due to US 41 Project construction. Additionally, no speed limit will officially change until the 65 mph speed limit signs are posted. Motorists are reminded to remain alert and use caution when traveling through this or any work zone.

All lane restrictions and work operations are subject to change.
